## Landlines in the UK are going digital by 2025.

Although the landline isn't going away, residents and businesses might have questions or want to know more about this industry-wide change.

Throughout May, BT will be heading to towns and cities across the East of England where they will have a team on hand who can tell you more about the digital switchover, why the change is necessary and what it means for you.

**You don't have to pre-book, just turn up.**
