#### Purpose

The purpose of the Healthy & Safe Places for All Strategic Steering Group is to provide oversight and steer for the delivery of the Growth Board's Mission of "By 2040, Hertfordshire's residents and communities will benefit from neighbourhoods that are designed and regenerated with physical health, mental wellbeing, safety and social connectedness at the heart". It will liaise with all relevant agencies which have a statutory or business role in delivering healthy and safe places in the county.

#### Strategic Goals

The strategic goals of the Healthy & Safe Places for All Steering Group are set out in the Hertfordshire Growth Board Vision and Missions as agreed in January 2024:

1. Improve and regenerate existing places and design and deliver new housing developments to enable residents to lead healthier lifestyles, have good physical and mental health, and feel safe.
2. Ensure that plans for regeneration and housing growth promote enhanced access to green spaces and community facilities including sport and recreation, and support walking and cycling.
3. Target health inequalities faced by particular groups and communities through local plan policy and local health initiatives.
4. Ensure there is a strategic and collaborative approach to the development of new and existing health facilities in Hertfordshire that supports residents to lead healthier lifestyles.
5. Ensure the health and care services needed to support existing and new communities are identified and built into local plans.
